SUMMARY

Aspiring Data Analyst and Web Developer with hands-on experience in SQL, data visualization, and dashboard development. Familiar with AI tools and basic web technologies, with additional skills in graphic design. Seeking an internship to apply analytical and creative problem-solving skills.

EDUCATION

G.H. Rasoni Institute of Information Technology

Bachelor of Technology (B.Tech), Computer Science Engineering

2023 - 2027

PROJECTS

1. Customer Behavior Analysis Dashboard

- Developed an interactive dashboard to analyze customer purchasing behavior and trends.
- Performed data cleaning and transformation using SQL and Jupyter Notebook.
- Created visualizations to identify key insights and business patterns.
- Tools Used: SQL, Jupyter Notebook, Power BI / Excel

2. Data Analysis using SQL & Python

- Analyzed structured datasets using SQL queries and Python in Jupyter Notebook.
- Applied data preprocessing, filtering, and aggregation techniques.
- Generated insights using data visualization for better decision-making.
- Tools Used: SQL, Python (Pandas), Jupyter Notebook

3. Graphic Design

- Created visual content including posters, presentations, and social media designs.
- Focused on layout, color theory, and user engagement.
- Tools Used: Canva / Figma / Photoshop

ACHIEVEMENT AND ACTIVITIES

- Participated in multiple hackathons, including inter-college hackathons, gaining experience in teamwork, problem-solving, and rapid project development.
- Actively learning and applying concepts in Data Analytics, Web Development, and AI tools to build practical, real-world projects.
- Designed graphics, posters, and visual content for college events, demonstrating strong skills in graphic design and visual communication.

SKILLS

- **Languages:** Python, SQL
- **Tools:** Jupyter Notebook, Power BI / Excel
- **Web:** HTML, CSS (Basic)
- **Design:** Canva / Figma / Adobe
- **Others:** GitHub, AI Tools
